

RULES OF THE ROAD TRIP CHECKLIST

BATTERY

Hot temperatures take a toll on the life of your battery. Bring your vehicle to Advance Auto Parts and we'll test your battery for free and install a new one with purchase.

LIGHTS

Ensure your headlights and taillights are working so you have clear visibility. We have a wide selection of bulbs if it's time to replace them.

WIPER BLADES

Over time, wipers tear, crack, and dry out. If you see streaking or hear chattering, check for damage, and consider replacing them. We carry a range of wiper blades and offer free installation with purchase.

OIL

Make sure you change your oil at the recommended intervals. Many vehicles require an oil change every 3,000 to 5,000 miles. Check out our oil change bundles and get the oil and filter you need for one low price.

BRAKES

If you notice squeaking or other noises when braking, remove the wheels to inspect the brakes. If the pads look thin, it's time to replace them. We'll help you find everything you need to complete the job.

TIRES

Check your vehicle's tire pressure and ensure each tire is inflated to manufacturer specs. This ensures you have optimal traction on roadways.

DETAIL YOUR RIDE

Give your car a wash to get it ready for your summer road trips. Remember to wipe down your dashboard, seats, and door panels.
